Employment for Major Projects

For major capital projects; most work is contracted out and hiring is done by the contractors.

Contractors awarded projects, can be accessed at

https://www.hydro.mb.ca/tenders/tender_opportunities.shtml and applications/resumes are to be provided to the contractor.

For transmission line development, there are limited employment opportunities. This could include clearing and tower construction. Hiring will be through the contractor and not directly with Manitoba Hydro.

Vending and Tender Opportunities

Opportunities for contact work can be accessed on the Manitoba Hydro website at

https://www.hydro.mb.ca/tenders/tender_opportunities.shtml

If a company within the municipality offers product or services that may be of use to Manitoba Hydro, companies can complete a vendor registration form. This form will be entered into a database to efficiently connect buyers with vendors.

Most vending opportunities are placed on MERX where bidders can submit bids electronically and can be accessed at www.merx.com under "Agencies, Crown and Private Corporations"

Questions regarding these tender/vending opportunities should be directed to

purchasing@hydro.mb.ca
