Recycling Stats

We are half way through 2014, and sadly recycling stats have dropped increasingly low compared to the last couple of years. From January to June 2014, only 47,484.2 kg's of recycling were received at the three waste disposal sites in the RM, compared to the 60,536 kg's of recycling that were received from January to June in 2013. We cannot stress enough the importance recycling has on the environment as well as on the municipality as a whole. If the amount of recycling does not improve, the end result could lead to more dump closures within the RM and increased costs. The RM has recycling sheds at each Waste Disposal Site as well as within each community in the municipality. It may just be one item you don't feel like recycling, but each recyclable item you throw in household garbage leads us one step closer to a change in how we manage our waste.

**PLEASE REMEMBER THAT ALL RECYCABLES NEED TO BE BAGGED;
NO LOOSE RECYCLABLE ITEMS PLEASE, EXCEPT FOR CARDBOARD.**

Cleaning up After your Animals

The RM of Piney would like to send out a reminder to all pet owners that you are responsible for cleaning up after your animal at all times.

We have received numerous complaints in regards to this issue and need to make it aware that it is your responsibility as a pet owner to clean up after your animal.
