March 5, 2013

To whom it may concern,

As you are very well aware the fall of 2012 brought devastating weather to much of the rural municipality of Piney and has left a large amount of damage. The mature Jack Pine stands seem to be the most effected by the storm and may become a fire hazard during dry summer weather. Ainsworth is planning on purchasing large volumes of pine from Manitoba this upcoming spring and summer to assist in clean up efforts.

Ainsworth is working with the Crown to help clean up heavily damaged areas and would also like to reach out to any private land owners who would like to clean up their properties. Ainsworth can assist in facilitating the transport of wood, recommending loggers, or simply contracting the purchase of your wood. If you are interested in cleaning up your property and would like more information we will be holding an information meeting for anyone who is interested in the RM Building in Vassar on March 21, 2013 from 7 to 9 pm. If you can not attend the information session and are seeking more information please contact Steve Hosegood at either (807)275-5167 or email at steven.hosegood@ainsworth.ca.

Thank you.

Sincerely,

Tim Gauthier

Woodlands Manager
